Chapter 1

Introduction

1.1 About EduX

EduX is a comprehensive, offline-first school management system designed for educational institutions. Built with Flutter for Windows desktop, it provides complete school administration capabilities without requiring internet connectivity.

1.1.1 Key Features

- **Offline-First Operation** – All data stored locally in SQLite database
- **Student Management** – Complete student lifecycle from admission to graduation
- **Fee Management** – Invoicing, payments, concessions, and defaulter tracking
- **Attendance Tracking** – Daily attendance for students and staff
- **Examination System** – Exams, marks entry, grading, and report cards
- **Staff Management** – Employee records, payroll, and leave management
- **Academic Management** – Classes, sections, subjects, and timetables
- **Reports & Analytics** – Comprehensive reporting with PDF/Excel export
- **Backup & Restore** – Data safety with automated backups

1.1.2 User Roles

EduX supports four user roles with different access levels:

Admin	Principal	Teacher	Accountant
Full system access	Academic oversight	Class management	Fee management

Chapter 2

System Requirements

2.1 Hardware Requirements

Component	Minimum	Recommended
Processor	Intel Core i3 / AMD Ryzen 3	Intel Core i5 / AMD Ryzen 5
RAM	4 GB	8 GB
Storage	500 MB free space	2 GB free space
Display	1366 × 768 resolution	1920 × 1080 resolution

2.2 Software Requirements

- **Operating System:** Windows 10 (64-bit) or later
- **Visual C++ Redistributable:** 2019 or later (bundled with installer)

Chapter 3

Installation

3.1 Installation Steps

1. Download the EduX installer from the official source
2. Run `EduX_Setup.exe` as Administrator
3. Follow the installation wizard prompts
4. Choose installation directory (default: `C:\Program Files\EduX`)
5. Wait for installation to complete
6. Launch EduX from desktop shortcut or Start Menu

3.2 Data Storage Location

All application data is stored locally:

```
C:\Users\<Username>\AppData\Roaming\EduX\
    |-- edux_database.sqlite    # Main database
    |-- backups\                # Backup files
    |-- exports\                # Exported reports
    |-- logs\                   # Application logs
```

Chapter 4

First-Time Setup

4.1 Setup Wizard

When launching EduX for the first time, the Setup Wizard will guide you through initial configuration:

1. School Information
2. Academic Year Setup
3. Admin Account Creation
4. Classes & Sections
5. Complete Setup

4.2 School Information

Enter your school's basic information:

- **School Name** (required)
- **Address, City, State**
- **Phone Number, Email**
- **Principal Name**
- **School Logo** (optional, PNG/JPG format)

4.3 Academic Year Configuration

Configure the current academic year:

- **Academic Year Name** (e.g., "2025-2026")
- **Start Date** (e.g., April 1, 2025)
- **End Date** (e.g., March 31, 2026)
- **Working Days** (select days school operates)
- **School Timings** (start and end times)

4.4 Administrator Account

Create the first administrator account:

- **Username** – Unique login identifier (minimum 3 characters)
- **Password** – Strong password (minimum 6 characters)
- **Full Name** – Administrator's display name
- **Email** (optional) – For account recovery

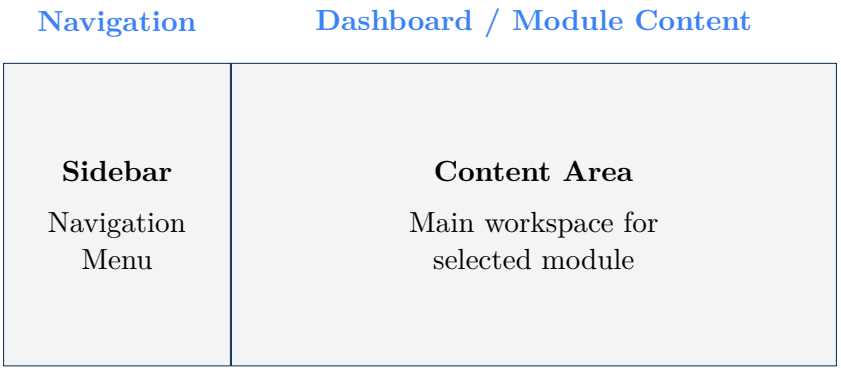
Important: Store these credentials securely. The admin account has full system access.

Chapter 5

Navigation Overview

5.1 Main Interface

The EduX interface consists of three main areas:



5.2 Navigation Menu

The sidebar provides access to all modules:

Module	Description
Dashboard	Overview with statistics, alerts, and quick actions
Students	Student registration, profiles, and enrollment
Attendance	Daily attendance marking and reports
Fees	Invoice generation, payment collection, reports
Exams	Exam creation, marks entry, report cards
Staff	Employee management, payroll, leave
Academics	Classes, sections, subjects, timetable
Reports	Analytics and data exports
Settings	System configuration and backup

Chapter 6

Quick Start Guide

6.1 Recommended First Steps

After completing setup, follow these steps to get started:

1. **Configure Classes & Sections**
   - Go to `Academics` → `Classes`
   - Add all classes (e.g., Playgroup, Nursery, Class 1-10)
   - Add sections for each class (A, B, C)
2. **Set Up Subjects**
   - Go to `Academics` → `Subjects`
   - Add subjects with codes (e.g., ENG, MATH, SCI)
   - Assign subjects to classes
3. **Configure Fee Structure**
   - Go to `Fees` → `Fee Types`
   - Create fee types (Tuition, Transport, etc.)
   - Set class-wise fee structures
4. **Register Students**
   - Go to `Students` → `Add Student`
   - Enter student and guardian information
   - Enroll in appropriate class/section
5. **Create User Accounts**
   - Go to `Settings` → `Users`
   - Create accounts for teachers and staff
   - Assign appropriate roles

6.2 Daily Operations

Mark Attendance	Collect Fees	View Reports
Students → Attendance or Staff → Attendance	Fees → Collect Payment	Dashboard or Reports module

Chapter 7

Keyboard Shortcuts

7.1 Global Shortcuts

Shortcut	Action
`Ctrl + D`	Go to Dashboard
`Ctrl + S`	Go to Students
`Ctrl + A`	Go to Attendance
`Ctrl + F`	Go to Fees
`Ctrl + E`	Go to Exams
`Ctrl + T`	Go to Staff
`Ctrl + R`	Go to Reports
`Ctrl + ,`	Open Settings
`Ctrl + B`	Create Backup
`Ctrl + Q`	Logout
`Escape`	Close dialog / Go back

Chapter 8

Getting Help

8.1 In-App Help

- **Tooltips** – Hover over interface elements for descriptions
- **Empty States** – Helpful guidance when sections have no data
- **Validation Messages** – Clear error messages for form inputs

8.2 Data Backup

Important: Regularly backup your data to prevent data loss.

1. Go to `Settings` → `Backup`
2. Click `Create Backup`
3. Choose destination (local folder or external drive)
4. Confirm backup completion

Tip: Enable automatic backups in Settings for daily protection.
