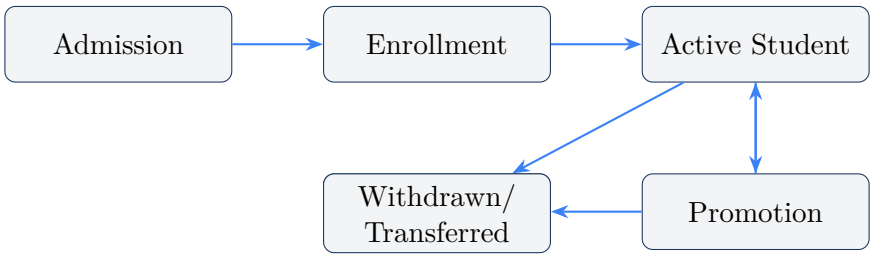
Chapter 1

Student Management Overview

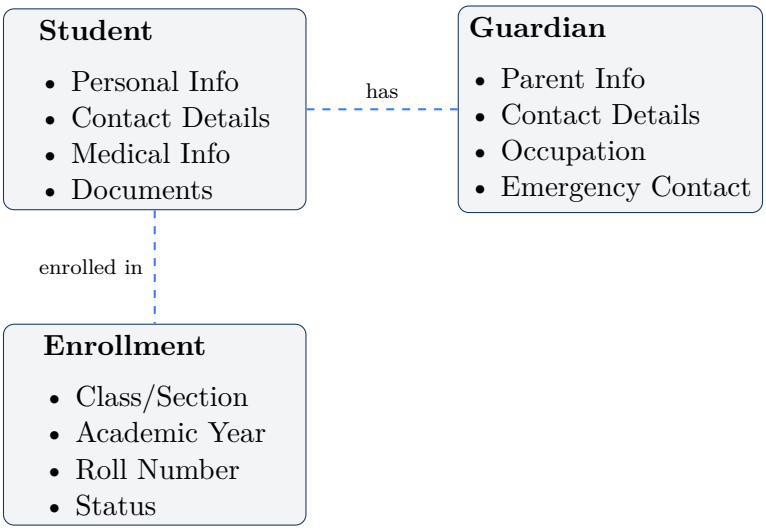
1.1 Introduction

The Student Management module is the core of EduX, providing comprehensive tools for managing the complete student lifecycle from admission to graduation.

1.2 Student Lifecycle



1.3 Student Data Structure



Chapter 2

Adding Students

2.1 Add Student Form

Navigate to `Students` → `Add Student` to register a new student.

2.1.1 Personal Information

Field	Required	Description
Admission Number	Yes	Unique identifier (auto-generated or manual)
First Name	Yes	Student's first name
Last Name	Yes	Student's last name
Date of Birth	No	Birth date for age calculation
Gender	Yes	Male / Female
Blood Group	No	For medical emergencies
Religion	No	Student's religion
Nationality	No	Default: Pakistani
CNIC / B-Form	No	National identity number

2.1.2 Contact Information

Field	Required	Description
Address	No	Residential address
City	No	City of residence
Phone	No	Contact number
Email	No	Email address

2.1.3 Medical Information

Field	Required	Description
Medical Info	No	Any medical conditions
Allergies	No	Known allergies
Special Needs	No	Learning or physical needs

2.1.4 Academic Information

Field	Required	Description
Class	Yes	Class to enroll in
Section	Yes	Section within class
Roll Number	No	Roll number in class
Admission Date	Yes	Date of admission
Previous School	No	Name of previous school

2.2 Student Photo

Upload a student photo:

- Supported formats: PNG, JPG, JPEG
- Recommended size: 300 × 300 pixels
- Maximum file size: 2 MB
- Click the photo placeholder to upload

Chapter 3

Guardian Management

3.1 Adding Guardians

Each student can have multiple guardians (parents, relatives, etc.).

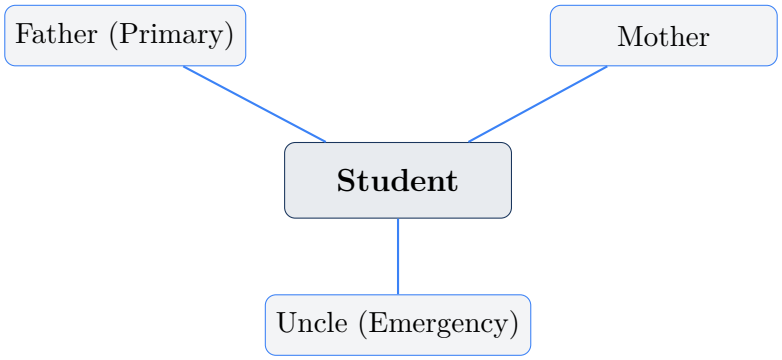
3.1.1 Guardian Information

Field	Required	Description
First Name	Yes	Guardian's first name
Last Name	Yes	Guardian's last name
Relation	Yes	Father / Mother / Guardian / Other
CNIC	No	National identity number
Phone	Yes	Primary contact number
Alternate Phone	No	Secondary contact
Email	No	Email address
Occupation	No	Job / Profession
Workplace	No	Employer name
Address	No	If different from student

3.1.2 Guardian Flags

- **Primary Guardian** – Main contact for communications
- **Can Pickup** – Authorized to pick up student
- **Emergency Contact** – Contact in emergencies

3.2 Multiple Guardians



Chapter 4

Student Profiles

4.1 Viewing Student Profile

Click on any student in the list to view their complete profile.

4.1.1 Profile Sections

1. **Personal Information** – Basic details and photo
2. **Contact Details** – Address and phone numbers
3. **Guardian Information** – All linked guardians
4. **Enrollment History** – Class history across years
5. **Attendance Summary** – Attendance percentage
6. **Fee Summary** – Outstanding and paid amounts
7. **Exam Results** – Academic performance

4.2 Quick Actions

From the student profile, you can:

- **Edit** – Modify student information
- **View Attendance** – See detailed attendance records
- **View Fees** – Check fee status and history
- **View Report Card** – Access academic reports
- **Print ID Card** – Generate student ID card
- **Transfer/Withdraw** – Change student status

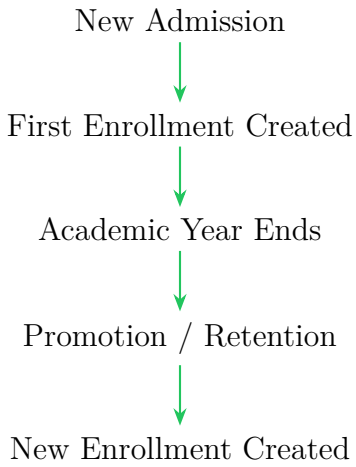
Chapter 5

Enrollment Management

5.1 Understanding Enrollments

Enrollments link students to classes for specific academic years. A student can have multiple enrollment records over time.

5.2 Enrollment Workflow



5.3 Enrollment Status

Status	Description
Active	Currently enrolled and attending
Promoted	Moved to next class
Retained	Repeating current class
Transferred	Moved to another school
Withdrawn	Left school (other reasons)

Chapter 6

Bulk Operations

6.1 Bulk Import

Import multiple students from Excel:

1. Go to `Students` → `Import`
2. Download the template Excel file
3. Fill in student data following the template
4. Upload the completed file
5. Review import preview
6. Confirm import

6.1.1 Import Template Columns

```
admission_number, first_name, last_name, gender,
date_of_birth, class, section, guardian_name,
guardian_phone, guardian_relation, address
```

6.2 Bulk Export

Export student data:

1. Go to `Students` → `Export`
2. Select export format (Excel / PDF)
3. Choose fields to include
4. Apply filters (class, section, status)
5. Click `Export`

6.3 Bulk Promotion

At the end of academic year:

1. Go to `Students` → `Promotion`
2. Select source class and section
3. Choose destination class
4. Select students to promote
5. Review and confirm

Chapter 7

Search and Filter

7.1 Quick Search

Use the search bar at the top of the Students screen to search by:

- Student name
- Admission number
- Guardian name
- Phone number

7.2 Advanced Filters

Filter	Options
Class	All classes or specific class
Section	All sections or specific section
Status	Active, Inactive, Graduated, Withdrawn, Transferred
Gender	Male, Female, All
Academic Year	Current or previous years

Chapter 8

Student Statuses

8.1 Status Definitions

Active	Inactive	Graduated	Withdrawn
Currently attending	Temporarily inactive	Completed education	Left school

8.2 Changing Student Status

1. Open student profile
2. Click `Change Status`
3. Select new status
4. Enter leaving date (if applicable)
5. Provide reason for change
6. Confirm change

Note: Status changes are logged in the activity history for audit purposes.
