Chapter 1

Attendance Overview

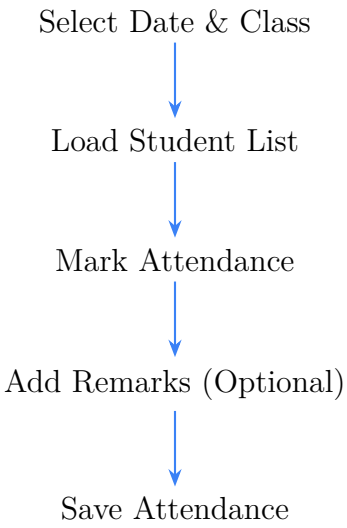
1.1 Introduction

The Attendance module tracks daily presence of students and staff. It provides real-time insights, alerts for low attendance, and comprehensive reporting.

1.2 Attendance Statuses

Present	Absent	Late	Leave
Student attended	Did not attend	Arrived late	Approved leave

1.3 Daily Workflow



Chapter 2

Marking Student Attendance

2.1 Accessing Attendance

Navigate to `Attendance` from the sidebar or use keyboard shortcut `Ctrl + A`.

2.2 Select Class and Date

1. Select the **Class** from dropdown
2. Select the **Section** (if applicable)
3. Choose the **Date** (defaults to today)
4. Click **Load Students**

2.3 Mark Individual Students

The attendance grid shows all enrolled students:

Roll No	Student Name	Status	Remarks
001	Ahmed Khan	Present	—
002	Fatima Ali	Absent	Sick
003	Bilal Hassan	Late	10 min

2.4 Quick Actions

- **Mark All Present** – Sets all students as present
- **Mark All Absent** – Sets all students as absent
- **Copy from Yesterday** – Copies previous day's attendance
- **Save** – Saves current attendance

2.5 Adding Remarks

Click on the remarks field to add notes:

- Reason for absence (sick, family emergency)
- Late arrival time
- Early departure
- Any special notes

Chapter 3

Viewing Attendance Records

3.1 Daily View

Shows attendance for all students on a specific date:

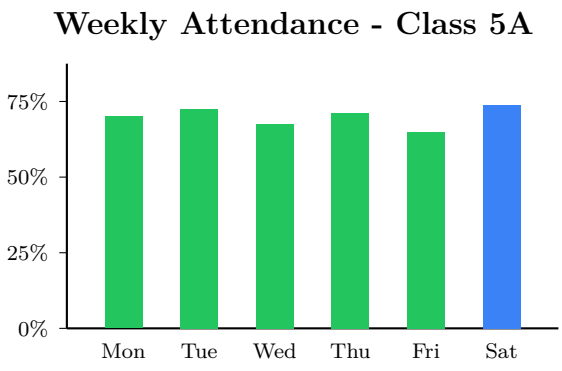
- Summary: Present / Absent / Late / Leave counts
- Percentage attendance for the day
- Color-coded status indicators

3.2 Student History

View individual student attendance:

1. Go to `Students` → Select Student
2. Click `View Attendance`
3. Select date range
4. View calendar or list view

3.3 Class Summary



Chapter 4

Attendance Alerts

4.1 Low Attendance Alerts

System automatically generates alerts for:

- Students with attendance below threshold (default: 75%)
- Consecutive absences (default: 3 days)
- Unusual patterns (sudden drops)

4.2 Alert Configuration

Configure in `Settings` → `Attendance Settings`:

Setting	Default	Description
Minimum Attendance %	75%	Alert threshold
Consecutive Absences	3 days	Days before alert
Alert Recipients	Admin	Who receives alerts

4.3 Viewing Alerts

Low Attendance Alert
Ahmed Khan (Class 5A) - 68% attendance this month

Critical
3 students absent for 5+ consecutive days

Chapter 5

Attendance Reports

5.1 Available Reports

Report	Description
Daily Report	Summary for a specific date
Weekly Report	Week-wise attendance summary
Monthly Report	Month-wise with trends
Student Report	Individual student history
Class Report	Class-wise statistics
Defaulters Report	Students below threshold

5.2 Exporting Reports

1. Go to `Attendance` → `Reports`
2. Select report type
3. Choose date range and filters
4. Select format: **PDF** or **Excel**
5. Click **Export**

5.3 Report Contents

PDF reports include:

- School header with logo
- Date range and filters applied
- Summary statistics
- Detailed records table
- Signature lines for verification

Chapter 6

Staff Attendance

6.1 Overview

Staff attendance includes additional features:

- Check-in and check-out times
- Half-day tracking
- Leave integration

6.2 Staff Attendance Statuses

Present **Absent** **Late** **Leave** **Half Day**

6.3 Recording Staff Attendance

1. Navigate to `Staff` → `Attendance`
2. Select date
3. Mark status for each staff member
4. Enter check-in/check-out times
5. Save attendance

6.4 Leave Integration

When a staff member has approved leave:

- Attendance automatically marked as "Leave"
- Cannot be changed unless leave is cancelled
- Shows leave type (Sick, Casual, etc.)
